## **D. & S. Anastopoulos S.A. is exclusive sales partner for Epple printing inks in Greece**

**Neusäß, 07 September 2018**

**D. & S. Anastopoulos S.A., Koropi, is the new exclusive sales representative in Greece and Cyprus for inks and varnishes of Epple Druckfarben. Since June 2018 the cooperation is already successfully under way.**

“This collaboration is based on the common philosophy of the two companies to provide high quality products in the Greek and Cypriot print markets. D. & S. Anastopoulos S.A. is a renowned dealer of the printing industry and we are happy that we have managed to gain the company as a sales partner”, says Gerhard Janssen, head of sales of Epple Druckfarben AG.

Since 1870 Epple represents highest product quality standards. The company is a market-leading-manufacturer of inks and coatings with innovations in the development of ecological series. Gangolf Junglen, Regional Sales Manager: “While talking to Greek print experts we have stated a huge interest in future proofed ink solutions. This includes solutions for high class commercial printing as well as sustainable packaging printing. We have perfected the processing in food packaging inks with the patented ink series BoFood® MU Next Generation and BoFood® Organic, which are arousing great interest.” Gangolf Junglen adds: “Furthermore Greek printers appreciate the product value, manufactured and produced in Germany in state-of-the-art facilities, and according to German standards in terms of quality and environmental processes.” Spyros Anastopoulos, President of the company D. & S. Anastopoulos S.A.: “We are very pleased with this collaboration by seeing a bright future ahead of us for both companies as we hope for impeccable cooperation.”

#### COMPANY INFORMATION

Epple Druckfarben AG stands for unique perfection in every detail. Since 1870, Epple has embodied permanent further development and the highest of quality demands. As the leading producer of offset printing inks, Epple has demonstrated its power of innovation with early development of mineral oil-free eco-series and special types of ink for very long washing intervals in perfecting printing. This has also been demonstrated in the sector of inks for foodstuff packaging with the patented products BoFood® MU and BoFood® Organic. PRe® is setting new standards as a third technology offset ink system, which completely avoids the use of metal dryers or photo initiators. Both sustainability and flexibility in business are top priorities at the medium sized family-run company. Unlike practically any other company, Epple is in the position to provide tailor made solutions for the individual requirements of their global customers.
