

Epple Druckfarben AG: Corporate financing supports growth trajectory

Neusäß, 25.05.2022

Epple Druckfarben AG, Neusäß, will continue its business growth trajectory. As part of this, in May 2022 the manufacturer of sheetfed offset printing inks successfully completed a financing round of ten million euros.

The new financial resources give Epple Druckfarben AG further monetary scope for general corporate financing and to swiftly implement strategic growth investments with targeted measures. A particular focus is given to developing the product portfolio of packaging printing inks, which was recently successfully expanded to encompass the internationally marketed ink series BoFood® DFC. Another investment focus is the further expansion of Epple Druckfarben in global growth markets. The Executive Board, the Supervisory Board and the owner families of Epple Druckfarben AG believe the additional financial resources give the traditional medium-sized company a commercially sustainable and future-oriented foothold in the global printing inks market.

COMPANY INFORMATION

Epple Druckfarben AG stands for pure perfection in every detail. Since it was founded in 1870, the company has epitomized continuous development and the highest quality standards. As one of the leading producers of offset inks, Epple has demonstrated its innovative strength in the early development of its mineral oil-free eco series and special ink types for very long intervals between wash-ups in perfecting. Its innovation is shown once more in its range of inks for food packaging with the patented products BoFood® MU and BoFood® Organic. The medium-sized family-run company places a high priority on sustainability and a flexible approach. Epple is rare among companies in that it offers customized solutions for the individual requests of its global customers.
