PRODUCT INFORMATION

---

## Extrafit Fount Hardener 2224

Concentrate for adjusting process water

---

FIELD OF APPLICATION

---

- Standardisation of water in case of water treatment systems
- Adjustment of water hardness

---

PROPERTIES

---

- Increases conductivity
- Protection against bacteria and algae
- Positive influence on ink/water balance

---

APPLICATION

---

Depending on starting hardness and demanded water hardness add 0,5 to 1,0 %. For optimum offset printing a water hardness of approximately 10 to 12 °dH is recommended.

---

SPECIFICATIONS

---

- According standards set by press manufacturers

---

CORRESPONDING PRODUCTS

---

<b>Waterfit</b>	Fountain additive for maximum productivity due to stable process
<b>Washfit</b>	Excellent wash to reduce paper waster and to realise short washing times

---

STANDARD PACKAGING

---

- 20 KG
- 220 KG
- 1.100 KG

Note: This technical description is intended to inform and advise you. It corresponds to our current state of knowledge. However, since the specific application depends on a number of factors over which we have no influence, no guarantee and liability for the pressure failure can be derived.
