
PRODUCT INFORMATION

Finishfit UV Highgloss 2006

PROPERTIES

- UV varnish
- Odorless after complete curing
- Very good flow
- Very good slip
- Suitable for hot foil stamping
- Suitable for plastics and foils
- Recommended for UV and hybride inks
- The curing of the UV coating is depending on the lamp power of the UV lamps in the dryer.
- Rub resistant
- Wet block resistant
- Suitable for coating on both sides
- Suitable for short and long delivery
- Suitable for paper and cardboard
- Standard viscosity 45 – 50 sec.
- Approved for indirect food contact

HANDLING INFORMATION

- The product properties depend on print substrate and applied quantity
- Stir well before using
- Keep away from frost and heat. Protect against direct sunlight
- Storage only in original container at 10 – 30 °C (50 – 86 °F)
- Viscosity measured at 20 °C (68 °F) using a viscosity cup DIN 4mm

This technical instruction sheet is designed for your information and reference. It is based on and conforms to our current knowledge. However as actual application is affected by many factors over which we have no control, we are not liable for printing failures.
